

RECOMMENDATION LETTER

This is a reference to any company that inquires electronic equipment and optional equipment supplier in medicine, energetics, telecommunication, information technology and security services industry in Kazakhstan.

Since being assigned the task of researching and comparing the range of products that could best fulfill our current and future needs, I have determined that the Liberty Group LLP products that they provide significantly outshines the others in terms of reputation, affordability, and support. The numerous glowing testimonies by companies currently benefiting from the product, and the abundance of positive references and reviews in the magazines of our trade, lead me to view the company as well-tested, legitimate, and of high quality.

In fact, in addition to fulfilling the requirements of our current situation, the company offers a number of supplementary capabilities that could prove useful down the road.

We recommend Liberty Group LLP to any company that wants to have responsible and trustworthy partner.

General Manager
Kheyfets Yuriy
